Springtime at Lady Franklin Bay. The building shown is Fort Conger in Lady Franklin Bay, as Commander Peary found it eighteen years after its abandonment by the Greeley Party 1881—1883. The cairn in sight is the one reared by the Nares Expedition in 1875. The Discovery party wintered here. In the winter's depths the station-buildings are almost lost in snow, but in springtime they re-appear and "are visible to the naked eye".
